

TRICON INDUSTRIES, INC.

Dear Valued Customer,

Recently, the Brazing Alloys Division of Tricon Industries, Inc. announced that it would no longer be supplying brazing pastes and would be winding down its operations. However, in the last few days a change has occurred in the business and I am pleased to announce that we completed a sale of the paste line to SCM Metal Products.

As a customer of SCM, your company will be able to continue to receive brazing paste products and take advantage of additional product options, solutions and services. Rest assured that your current level of service will not be affected.

SCM will seamlessly transition your business by fully assuming the Tricon paste business unit operations (including equipment and formulations) over the next few days. Representatives from Tricon and SCM will personally contact you to be sure to properly handle your account integration at SCM.

Please visit the SCM web site at www.scmmetals.com for more information about the company and all the services and support available to you. And if you have any specific questions for SCM, you may contact their Customer Service Group at (919) 544-8090 – extensions 873, 874 or 875.

On behalf of everyone at Tricon Industries, we would like to thank you for your business for so many years. It has been our pleasure to serve you.

Warm regards,

Jay Winkler
President/CEO
